Others Say ...

THE LESSON OF THE EGGS SURPLUS

Canadians better surplus has been attracting a lot of attention, and we have already expressed our opinion about it. Today we want to talk about the Finnish surplus of 1953, which left the government of Finland with over one million more eggs than it knew what to do with. So it decided that, so long as the surplus lasted, every Finnish soldier and every inmate of a Finnish jail or penitentiary must—without exception or evasion—eat three eggs for breakfast, seven days a week.

We hope that this can be kept from Ottawa, for it is not likely to have other success. Could cheese, we wonder, be used as a threat to stamp out juvenile delinquency?

—The Peterborough Examiner.

Maximums Increased By \$500; Make Two Staff Appointments

The Lindsay Public School Board received a letter of dissent from the Ontario Public School Teachers' Association, which was sent at the Board meeting on Wednesday night.

The teachers offered a letter of appreciation for the raised salaries, but they had serious concerns, and been approved by the Board. The new schedule will increase the average teacher's salary from \$3,800 to \$3,900, per year maximum, and will also increase the maximum for principals from \$4,800 to \$4,900.

It is estimated by the board that the cost of the salary schedule will be affected immediately by the change. They are those who have already received their maximum salaries of \$3,800. The maximum increase is \$200.

A board spokesman says that the teachers have been asking for a salary increase for some time, and the new maximum plus three per cent, which would be \$4,100 per year, but the board has not agreed to it.

Mr. M. J. Wilson, president of the board, said that the board has not agreed to it, but that the board has not agreed to it, but that the board has not agreed to it.
